# Deadlines

*from the Grants Resource Center*

**February 10, 2012**

This publication includes deadline dates for the month of May 2012 and late announcements for the months of April 2012 and March 2012. Proposals submitted by a referenced target date will be included in a particular review cycle, while those received after the target date will be held for the next review cycle. It is advisable to contact the program staff cited in each listing to obtain all available information.

**Those deadlines marked by an asterisk (**) are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices and in others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates.**

***Program:*** Chemistry/Materials Research at Interface of Science and Art (SCIART)

***Agency:*** National Science Foundation

***Next Deadline:*** Apr 17, 2012

Supports innovative three-year collaborative projects between researchers in U.S. museums and academic institutions that break new ground and demonstrate a high level of synergy among conservation scientists, chemists, and materials scientists to address grand challenges in the science of cultural heritage. Program solicits proposals that develop new/improved techniques and instruments with high sensitivity and spatial resolution, and study dynamic changes leading to degradation of cultural heritage objects. Formation of new collaborations strongly encouraged. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=503478 for details.
