For Faculty:

- SAT-M and placement scores can be viewed in Self-Service Banner by clicking on View Test Scores under Student Information (EA – Elementary Algebra Test, SAT-M – SAT Mathematics, CLM – College Level Math Test).
- Note that a student's placement level is determined **by their highest score**. So for example, a student with an SAT-M score of 590 but a CLM score of 80 is at Level 5.
- If a student is required to take a math class with access requirements above their placement level, they will need to complete the prerequisite courses first. So for example, a Level 2 student who needs to take MAT 211 for their major will need to complete MAT 050, MAT 140A and MAT 175 first. A Level 2 student who needs to take MAT 181 for their major will need to complete MAT 050, MAT 140A and then take MAT 181. Students who pass MAT 140A are not required to take MAT 140B. Further, a Level 2 student, who needs only MAT 105, 107, 110, or 117 for his or her major, has no prerequisite to scheduling courses numbered below 140.
