Day & Residential Camp objectives

The SU Baseball Camp is for individuals with an interest in sports and a desire to play baseball. Each participant will have the opportunity to improve in each phase of the game through concentrated practice and game situations.

All participants will receive personal attention to help develop their skills and abilities on the field. After they receive this instruction in a positive environment, they are bound to leave camp a better and more confident player.

All participants will generally practice and play in their own age groups—6-8, 8-10, 10-12, 13-15, and 16-18. However, we reserve the right to move a participant up or down depending on ability.

Our camp training will tend to improve a player's strength, power, endurance and flexibility. These attributes will be developed through the following daily schedule.

College Select Camp objectives

The College Select Camp is for high school players who want to get the attention of college coaches. The staff for this camp will include coaches from other colleges. Schools that can't send a coach to work will be invited to observe the games and drills at any time. This is a great opportunity for a high school player to get the attention of not just the Shippensburg staff but other schools as well. The Camp Staff will be announced the first day of camp so participants know what schools are represented.
