

Foreign Service

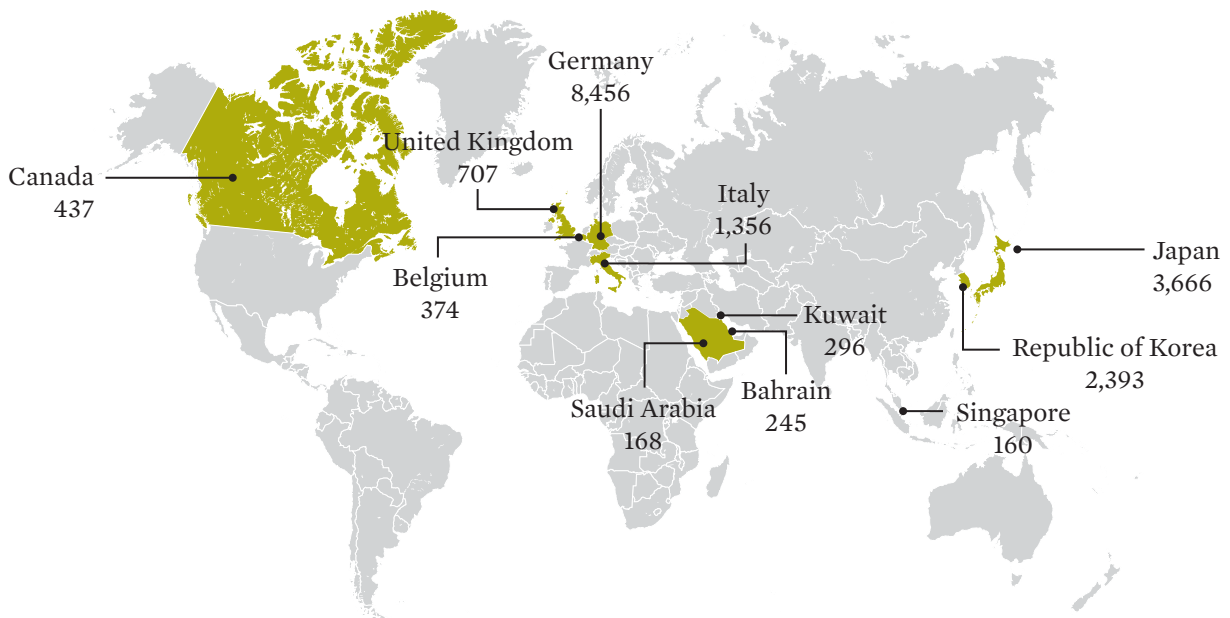

FEDERAL CAREER GUIDE

Are you interested in pursuing a career in Foreign Service? When the federal government talks about careers in Foreign Service, they are referring to two distinct types of positions.

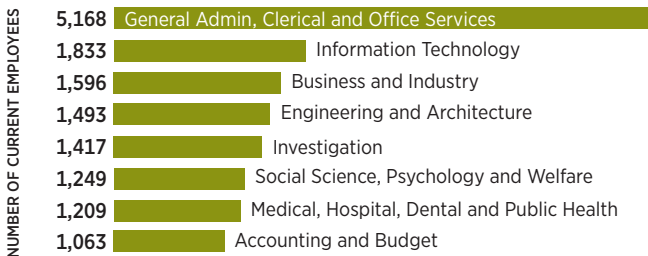

Foreign service positions located overseas: The federal government maintains a substantial presence overseas and the positions available cover virtually the entire spectrum of employment. Regardless of which field of employment you wish to enter, the likelihood that the government requires individuals with your skill set to work overseas is quite high.

Foreign service positions located within the United States: There are many positions located within the United States which are primarily focused on international programs and policies. Some examples of these positions are management analysts at the U.S. Agency for International Development or an economic analyst at the Department of Agriculture. If these positions are of interest to you, the Social Sciences Federal Career Guide will be a helpful resource.
