New Library Resources

Due to the successful Tech Fee Grant application submitted by the History Department, the library has acquired two new resources for students, namely The New York Times (1851-2006; with indexing through 1993) via ProQuest’s Historical Newspapers, and two additional collections for JSTOR (our most important archive of scholarly journals). The New York Times offers a unique perspective on the history of the United States and the world by those who witnessed it firsthand. It’s an invaluable resource for all disciplines and has a robust search capability.

The **Arts & Sciences VI Collection** extends JSTOR's coverage in disciplines across the social sciences, with clusters focused in economics, education, linguistics, political science, and area studies. These (often interdisciplinary) titles broaden the scope of cover-age for the social sciences and expand the range of international scholarship. **Notable Titles include:** *Foreign Affairs, Journal of Population Economics, Journal of Qu'ranic Studies, The Journal of Educational Research, The Middle East Journal, and The World Bank Economic Review.* The **Arts & Sciences VIII Collection** broadens JSTOR's coverage of core humanities disciplines including history, language & literature, art & art history, and education. This collection also includes a group of rare 19th and early 20th century American Art periodicals digitized as part of a special project undertaken with the Metropolitan Museum of Art, the Frick Col-lection, and the Brooklyn Museum of Art. This collection also includes journals in philosophy, classical studies, and music, for example, *Academe, African Music, Journal of South Asian Literature, Musica Disciplina, Research in Higher Education, and Revista Chilena de Literaturatura.*

October is National Cyber Security Awareness Month

This month, the Commonwealth will participate in National Cyber Security Awareness Month, a campaign to encourage everyone to protect their computers and our nation’s critical cyber infrastructure.

The Commonwealth is encouraging everyone to take the “Cyber Pledge” at <http://msisac.cisecurity.org/cyber-pledge/>; a national campaign organized by the Multi-State information Sharing and Analysis Center (MS-ISAC). The state and local governments with the most pledges will receive free cyber security training from the SANS (SysAdmin, Audit, Network, Security) Institute. Everyone is encouraged to sign the Cyber Pledge and demonstrate the commitment to taking cyber security seriously.

Student Technology Help Desk

Visit the Student Technology Help Desk in MCT054 if you need technical support for your personal computer and/or network connection. Students can walk in for assistance, call (717) 477-1639, or email helpdesk@ship.edu.

Fall 2011 Semester Hours:
 Sun: 5:00pm – 9:00pm
 Mon-Thu: 8:00am – 9:00pm
 Fri: 8:00am – 5:00pm
 Sat: Closed

The Ezra Lehman Memorial Library
 Fall 2011 semester hours:
 Mon-Thu 7:30am – Midnight
 Fri: 7:30am – 6:00pm
 Sat: 9:00am – 5:00pm
 Sun: Noon – Midnight

Library Photocopiers Give Way to Scanners

Recently the library removed photocopiers from the lower level and now offers free scanning using three scanners located on the main level opposite the printers. One scanner is for use with micro-forms and there is a small HP flatbed scanner (also one on the lollipop table in front of LL117) that will accommodate documents, such as syllabi and small books. The third is specifically designed to scan books. These scanners may be used without charge and documents can be sent to the networked printers or emailed to a recipient.

Popular Titles Book Collection

Come visit the newly refurbished lower level of Lehman Library! In addition to new group study areas and individual work stations, there is a new Popular Titles Book Collection. The collection includes both fiction and nonfiction and is made possible by collaboration between the SU Student Senate and Lehman Library. Although somewhat small at this time, new titles will be added regularly. Drop in and take a look! Stay a while and enjoy the ambience. Come back frequently and see what's being added to the collection.

Over the summer the Lower Level of the library was refurbished with the installation of new carpeting in the area where periodicals were formerly housed. In addition, the entire area was repainted and soft seating and small group-study areas have been installed along with a number of new computers. A Popular Titles Book Collection provides both fiction and nonfiction for off-hours reading pleasure. Come check it out!

Banner Migration

myShip web portal has launched! Final cutover to the Banner Student system was completed in August 2011 through the tireless efforts of many Ship staff and managers. myShip is available at <http://portal.ship.edu>.

Ship student Rich Abel (bottom right) accesses the myShip portal as Ship administrators look on. From left to right, front row: Associate Provost and Dean of Graduate Studies Tracy Schoolcraft, Provost Barbara Lyman, Rich Abel. Back row: Director of Web Technical Services Justin Sentz, Director of Systems and Applications Amy Diehl, Associate Vice President of Information Technologies & Services Dennis Mathes, Vice President of Information Technologies & Services Rick Ruth, and President Bill Ruud.

The MCT054 microcomputer lab is open 24 hours a day, 7 days a week with at least 30 Windows 7 Enterprise SP1 machines and an Apple iMac.

Telecommunications

The Telecommunications Center provides support and services related to voice communications, voice messaging, local and long distance dialing, voice and data wiring, cable television and related telecommunications services. Contact us at (717) 477-1209 or stop by Old Main 102B inside the Communications Center Office Monday-Friday, 7:30am – 4:00pm.
