The following course description of the RDG 050: Developmental Reading and Study Skills course at Shippensburg University may be helpful in locating an appropriate course if you tested at the developmental level.

This course is designed to aid the student in mastery of reading and study skills necessary for success in nearly all academic fields. Individual attention will be given to areas needing improvement in reading efficiency and flexibility, vocabulary, comprehension of specific types of content materials, outlining, test-taking, note-taking, and allied activities. All work will be based on careful diagnosis of strengths and weaknesses.

These developmental classes do not count toward graduation.
