Apply early. We admit students on a “rolling admission” basis, which means we review your completed application as soon as we receive it. We encourage you to apply as early as possible, and we welcome applications from transfer students in good standing, international, and nontraditional students. You can check the status of your application online at SHIP.EDU/ADMISSIONS

COVER: Ship field hockey standout Lucy Kauffman received the National Collegiate Athletic Association’s (NCAA) highest award for academic achievement when she graduated in May 2015. The Walter Byers Scholarship for postgraduate study is given to just one male and one female student-athlete among the nearly 470,000 athletes across all NCAA divisions.
The primary focus for our faculty is teaching, mentoring, and advising students.

The high faculty-to-student ratio has allowed me to really get to know my professors and create a support system during my time here. This helped me become involved in the department and with research with some of my professors.”

RYAN SPANGLER, WESTMINSTER, MD, BIOLOGY

19:1
STUDENT TO FACULTY RATIO

At Ship, you’ll find an emphasis on individual attention, practical applications, and exposure to the latest ideas and methods. Many top students choose to enter the Honors Program, which provides innovative classes and enriching co-curricular experiences.

SCHOLARSHIP

The primary focus for our faculty is teaching, mentoring, and advising students.

Studying abroad opened my mind to the world and all of its possibilities. During the course of 24 days, we traveled to several different countries across Europe studying the history, political and economic structures, cultures, and society.”

CHELSEY SEGER, HANOVER, POLITICAL SCIENCE

STUDENTS COME FIRST!
Being President of the Investment Management Program has by far been the most meaningful learning experience at Ship. We manage a real-money portfolio of stocks and competed in an international competition of student-run portfolios in New York—and claimed a first-place award.

LISA ROBBINS, PHILADELPHIA, ACCOUNTING AND FINANCE

We encourage students to step out of their comfort zones and step up into leadership—like leading student clubs or organizing volunteer projects.

Service learning is a passion at Ship. Students take what they learned in class and apply it in the community—lending a helping hand to local non-profit groups and schools or reaching across nations to aid a community in Haiti.

While serving as president of GESO (Geography-Earth Science Organization) I learned leadership, organizational, and mentoring skills and developed field techniques through volunteer activities.

MARI SAMES, BALTIMORE, MD GEOGRAPHY AND INTERNATIONAL STUDIES
I have a desire to create new cutting-edge technology and an important aspect is understanding how technology is used. My internship with a global company gave me this insight. It was a fantastic experience. I learned more about what I want to do in my career while gaining experience and networking with people all over the country and the world.

TYLER GARRETT, HANOVER, COMPUTER ENGINEERING

Education is not just what happens in the classroom. Ship students learn through study abroad, service-learning projects, and internship experiences.

LEARNING OUTSIDE THE CLASSROOM
You immediately feel you’re among family from the moment you step on campus. It’s a home away from home where you can relax with friends and be valued for who you are.

STUDENT LIFE

My favorite thing about Ship is the community atmosphere and all the clubs on campus. I’m active with two organizations related to residence life. In both organizations, we really strive to build a community both on and off campus.”

CHELSEA WASHINGTON, LANCASTER, INTERDISCIPLINARY ARTS

Hungry? You can select from two student restaurants, a café, food court, snack shack, Papa John’s, Starbucks and more.

DINEONCAMPUS.COM/SHIP

Students on the Activities Planning Board organize events for entertainment—concerts, comedians, dance, theater, festivals—and always fun!
ShipRec Center includes a fitness studio, running track, racquetball and squash courts, and four multi-purpose courts.

Options for living on campus include the "suite" life—share a living room, food prep and dining space, and bathroom with your suitemates. You can also choose to live in Living-Learning Communities with others who share your academic, personal, or social interests.

"The campus farm] has been a real joy for me because I didn’t think I would be able to express my passion for sustainable agriculture. But now students have a way to learn about sustainable agriculture and how you can really do it just in your backyard."

JULIA SAINTZ, BOILING SPRINGS, HISTORY AND GEENVIRONMENTAL

16,500 HOURS—SHIP STUDENTS VOLUNTEER ANNUALLY
“Enterprise has hired countless Ship graduates and interns, and their success rate has been exceptional as compared to other individuals from other colleges and universities.”

ERICA SMITH, ENTERPRISE HOLDINGS

“Our group has been very successful in finding outstanding graduates and interns from Ship. Shippensburg does a great job at preparing students for job placement.”

RENEE GARDNER, TARGET

“As a recruiter with Target, I am always looking to find leaders who have a passion to succeed. We have been pleased with the level of talent and variety of backgrounds Ship students possess. They come well prepared, engaged, and professional, which allows them to flourish in the innovative atmosphere at Target.”

DAVID STUDY, COMMUNITY SERVICES GROUP

“IBM has hired several Shippensburg University graduates as they come well prepared with excellent analytical skills, leadership, and enthusiasm to thrive in a fast-paced environment. Ship students are bright, creative and talented and are tremendous assets for us.”

IBM GLOBAL BUSINESS SERVICES

Our students are well received in graduate schools and by employers. At Ship, you’ll be encouraged, supported, and challenged to achieve your ambitions.

“Shippensburg University does a great job at preparing students for job placement.”

David Study, Target

“A Network of 65,000 Alumni”

Shippensburg University is a member of Pennsylvania’s State System of Higher Education, which is the largest provider of higher education in the Commonwealth, with about 110,000 students. The 14 State System universities offer degree and certificate programs in more than 530 areas of study. Nearly 520,000 PASSHE alumni live and work in Pennsylvania.

The Ship campus is situated on 200 rolling acres overlooking the town of Shippensburg, a friendly community of 5,500 in south-central Pennsylvania.
I received an Honors Program scholarship to study at the Grand Canyon over the summer with the National Park Service. It was incredible to be able to be across the country and bring my learning and research to life outside the classroom.”
