Dispositions

Under standard one we are required to prepare candidates to work in the schools as teachers and other professionals. They want us to demonstrate the content knowledge, pedagogical content knowledge and skills, pedagogical and professional knowledge and skills and professional dispositions to help all students learn.

Issues:

1. How have we demonstrated across our programs in the unit that our students have acquired the dispositions associated with our various programs?
2. Is our work related to dispositions attached to particular courses?
3. Does the demand for dispositions increase within our programs through student teaching and or internships?
