Grant Information Opportunities

SPIN Assistance
Faculty interested in learning more about the Sponsored Program Information Network (SPIN) should call Cristy Lentz, ext. 1251, to schedule a tutorial session. She makes office visits!

SPIN is a database service designed to provide up-to-date information on current federal and non-federal grant- funding opportunity program announcements. Additional information about SPIN can be found on pages 6 and 7 of this month's Opportunities. To register for one of these workshops, please call Cristy Lentz at 477-1251.

Grants.Gov Application Process
Grants.gov provides a unified electronic storefront for interactions between grant applicants and the Federal agencies that manage grant funds. There are 26 Federal grant-making agencies, including NIH, NEH and NSF, and more than 900 individual grant Programs that award over $400 billion in grants each year. The grant community, including state, local and tribal governments, academia and research institutions, and not-for-profits, need only visit one website, Grants.gov. It provides access to annual grant funds available across the Federal government as well as providing:

- A single source for finding grant opportunities.
- A standardized manner of locating and learning more about funding opportunities.
- A single, secure and reliable source for applying for Federal grants online.
- A simplified grant application process with reduction of paperwork.
- A unified interface for all agencies to announce their grant opportunities, and for all grant applicants to find and apply for those opportunities.

NOTE
Grants.gov is both a search tool and electronic means of applying for federal grants. The Institute for Public Service (IPS) is registered as the Authorized Organizational Representative (AOR) for Shippensburg University. The IPS coordinates all grant application submissions made by University staff and faculty. We have successfully processed electronic submissions through NSF Fast Lane process. Our grant officer colleagues across the country with experience with the Grants.gov process have had various problems with application submissions. Utilizing the Grants.gov system will require that a fully executed application has to be ready for electronic submission at least five working days prior to the application deadline. Please contact this office, 202 Old Main, 477-1251, before you begin any applications through Grants.gov so that we may advise and assist you throughout the application process.
To: Faculty
Re: Grant Applications

The staff of the Institute for Public Service is available to assist you as needed in all phases of application development and research administration, including: developing your project idea, choosing the funding agency, assisting with the project design, and processing your application. We will help you . . .

Develop the Idea. Many consider the idea the most important aspect of any project. At the Institute for Public Service, we will help you develop your idea into a workable project. The care with which this step is completed often determines whether the project will be funded.

Identify Potential Sources for funding through source searches, Program announcements, and through direct contact with agency personnel. Custom-tailored computer-assisted searches are available through the University’s membership in the American Association of State Colleges and Universities (AASCU) Grant Resource Center.

Assist with Project Design. In order for your project to be successful, the project design must be carefully planned and executed.

Write the Application. The staff of the Institute will assist in editing and reviewing the application. Also, we will assist you with all forms required by the funding agency.

Design the Budget. The staff of the Institute will provide technical assistance in preparing your project budget, and in identifying appropriate funding levels for budget line items to enhance your project and make it competitive during the review process.

Understand Project Guidelines. Each funding agency has specific guidelines concerning application and program procedures. The Institute staff will assist you in reviewing and interpreting these guidelines.

Obtain Necessary Program Materials and forms for completion of the grant application.

Communicate with Funding Agencies, answer questions and when necessary, negotiate the budget.

Assist You in Implementing the project upon approval. All applications prepared by faculty and staff requesting support, real or in-kind, for a project from an external funding agency must be reviewed by the Senior Staff of the university before it is sent off-campus. This review begins at the department and college level and progresses through the Provost to the President. After receiving an award letter and verification that your application has been funded, the following steps are necessary to start your project:
1. Contact the Director of the Institute for Public Service & Office of Sponsored Programs and arrange a meeting to discuss the administration of your grant. The Institute staff is prepared to assist and advise you in implementing the grant.

2. Attend the “Grant Kick Off” meeting arranged for you by the grant accounting office. This meeting (which includes staff from the following offices: Grant Accounting, Purchasing, Personnel, and Travel) is designed to review university policies and procedures necessary for the successful implementation of the grant.

Please observe the following:

**Do:** Obtain approval through the university’s purchasing system for all purchases; including supplies, equipment, and services.

**Don’t:** Make any purchases that are to be charged to the grant prior to the official start date of the grant.

**Do:** Get prior approval through the university’s contracting office for the services of all consultants. Consultant contracts must be in place **prior** to the start of any work.

**Don’t:** Sign any document or make any verbal agreement that would obligate the university to perform any service or expend any funds.

**Do:** Submit travel orders in advance to comply with all university and system travel regulations. All foreign travel requires pre-approval from both the funding agency and the University. The use of a U.S. flag carrier is required on all foreign travel conducted with funds under a Federal grant.

**Don’t:** Conduct any travel for which you would want to receive reimbursement from grant funds prior to the date of the official award letter.

Any questions may be directed to the Institute for Public Service & Office of Sponsored Programs at (717) 477-1251.
Shippensburg University SPIN Plus ACCESS

WHAT IS IT?

SPIN … Sponsored Programs Information Network is a funding opportunities database designed to provide up-to-date information on current federal and non-federal Program announcements. Anyone operating a computer on the university network may access SPIN WWW.

GENIUS … Global Expertise Network for Industries, Universities and Scholars is a global WWW network and database of scientific and scholarly expertise.

SPIN + GENIUS = SMARTS … Spin Matching and Research Transmittal Service is an electronic matching and funding opportunity notification system.

WHAT IT CAN DO FOR YOU

SPIN allows you to search for funding opportunities using specific categories and key words.

GENIUS allows you to enter your own Investigator Profile into the SPIN database. The system contains profiles entered and maintained by scholars and researchers at leading universities and research institutions throughout the world. GENIUS provides global recognition to participants and serves as a registry of institutional talent and expertise to be used by industry and academia alike.

SMARTS provides investigators with a direct and targeted electronic link to comprehensive, current and available research funding information.

SPIN HOW IT WORKS

You will then be on the SPIN Search Engine Screen, where you may enter search criteria and run quick and advanced searches. Instructions and search tips are provided behind the HELP button. You may also contact Cristy Lentz (extension 1251 or InfoEd 1-800-727-6427) with questions.

GENIUS HOW IT WORKS

TO ENTER A PROFILE: From InfoEd's homepage (http://www.infoed.org), click on Access Info.Office, select SMARTS/GENIUS. That will bring you to the main SMARTS/GENIUS Page. You will see a link to “Create a New Profile.” Click on Create a New Profile. On the next page, select Shippensburg University from the list, and click Select. Then just follow the instructions in filling out the different screens. You can create your own username and password, allowing you to access your profile.

The Institute for Public Service will receive an automatic e-mail notice as each new user signs on to the system. When this is received we will validate each new investigator.

In addition to setting up your own profile you can search for other researchers to locate potential partners/collaborators. You can access GENIUS Search from the Info.Office Main Menu. Feel free to
search the global database to locate investigators with specified expertise; and to use the search engine to generate institutional reports!

**SMARTS HOW IT WORKS**

To receive SMARTS matches, investigators must create individual profiles. You can elect to receive daily electronic notification of funding opportunities that matches your GENIUS profile against funding Program announcements in SPIN. Matched Programs are e-mailed to individual researchers every day in either summary or complete reports. If you do not wish to receive daily e-mails select NO for the question “SMARTS output/hits will be e-mailed to you as SPIN matches are found on a daily basis.” on the General Information/User Preferences page in GENIUS profile. You will still be able to access SPIN and do individual searches and have access to GENIUS profile.

If you would like additional information, please contact Cristy Lentz, extension 1251, or e-mail celent@ship.edu.
Deadlines
from the Grants Resource Center
April 09, 2010

This publication includes deadline dates for the month of July 2010 and late announcements for the months of June 2010 and May 2010. Proposals submitted by a referenced target date will be included in a particular review cycle, while those received after the target date will be held for the next review cycle. It is advisable to contact the program staff cited in each listing to obtain all available information. Those deadlines marked by an asterisk (***) are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices and in others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates.

Program: Institutional Grants; Film Festival Grants; Academy Film Scholars Program  
Agency: Academy of Motion Picture Arts and Sciences  
Next Deadline: Jul 01, 2010
The Academy provides grants to make the world of motion pictures more accessible to the public. Institutional Grants provide modest funding for film-oriented projects, including college-based internship programs, to college film departments and organizations providing services related to motion pictures (1/15). Film Festival Grants make festival events more accessible to the general public (7/1). The Scholars Program seeks to explore theatrical motion picture art, science, commerce, history or theory (10/1). See http://www.oscars.org/education-outreach/grants/index.html for details. E-mail: grants@oscars.org

Program: Fellowships Program  
Agency: American Institute of Indian Studies  
Next Deadline: Jul 01, 2010
Supports scholars from all disciplines to conduct research in India. Junior Research Fellowships focus on doctoral candidates for dissertation research. Senior Research Fellowships and Short-Term Fellowships support Ph.D. scholars. Performing and Creative Arts Fellowships and Professional Development Fellowships are for scholars and professionals who have not worked in India. Applicants may include U.S. citizens and citizens of other countries who are college students or faculty members at U.S. IHEs. Language programs also available. See http://www.indiastudies.org for details. E-mail: aiis@uchicago.edu

Program: Travel and Research Grants  
Agency: American Musicological Society  
Next Deadline: Jul 25, 2010
Provides several travel and research grants that support music research: M. Elizabeth C. Bartlet Fund for research in France (3/1); Jan LaRue Travel Fund for research in Europe (3/1); Janet Levy Fund for independent scholars (1/25, 7/25); Membership and Professional Development Committee Travel Grants (7/25); Eileen Southern Travel Fund provides funds for minority students to travel to the annual meeting (9/15); Harold Powers World Travel Fund (3/1); and Eugene K. Wolf Travel Fund for European research (3/1). See http://www.ams-net.org/grants/ for details. E-mail: rjudd@ams-net.org

Program: Bridging Cultures: Planning and Implementation Grants
Agency: National Endowment for the Humanities
Next Deadline: Jun 01, 2010

New NEH initiative that encourages projects that explore the ways in which cultures from around the globe, as well as the myriad subcultures within America’s borders, have influenced American society. With the aim of revitalizing intellectual and civic life through the humanities, NEH welcomes projects that expand both scholarly and public discussion of diverse countries, peoples, and cultural and intellectual traditions worldwide. FY 10 themes are Civility and Democracy and Muslim World and the Humanities. See http://www.neh.gov/grants/guidelines/BridgingCultures.html for details. E-mail: bridgingcultures@neh.gov

Program: Preservation and Access Education and Training Grants
Agency: National Endowment for the Humanities
Next Deadline: Jul 01, 2010

Supports education and training programs at the national or regional (multi-state) level that focus on the care and management of and the creation of intellectual access to library, archival, and material culture collections. Grants are also made to support regional preservation field services that provide surveys, consultations, workshops, reference services, and informational materials to the staff of institutions responsible for the care of humanities collections. Award ceiling is $250,000 for regional organizations; $125,000 for all other applicants. See http://www.neh.gov/grants/guidelines/pet.html E-mail: preservation@neh.gov

--------------------------------------------

Program: Preservation and Access: Research and Development
Agency: National Endowment for the Humanities
Next Deadline: Jul 01, 2010

Supports projects that address major challenges in preserving or providing access to humanities collections and resources. These challenges include the need to find better ways to preserve materials of critical importance to the nation’s cultural heritage from fragile artifacts and manuscripts to analog recordings and digital assets subject to technological obsolescence and to develop advanced modes of searching, discovering, and using such materials. Awards range from $350,000 to $400,000 for up to three years. See http://www.neh.gov/grants/guidelines/PARD.html for details. E-mail: preservation@neh.gov

--------------------------------------------
**Program:** Kluge Center Fellowship  
**Agency:** The Library of Congress  
**Next Deadline:** Jul 15, 2010  
Allows qualified scholars to conduct research in the Kluge Center using the Library of Congress collections and resources for up to 12 months. Fellows receive a stipend of $4,200/month for residential research at the Library. Humanistic and social science research that makes use of the Library's collections is strongly encouraged. Eligible applicants are scholars who have received a terminal advanced degree within the past seven years in the humanities, social sciences or a professional field such as architecture or law. Up to 12 Kluge Fellowships will be awarded annually. Other programs available. See http://www.loc.gov/loc/kluge/fellowships/

Program: Secondary Analyses of Social and Behavioral Datasets in Aging
Agency: National Institutes of Health
Next Deadline: Jun 16, 2010
Supports small grant (R03) applications to conduct secondary analysis of social behavioral data in aging. NIA's interests include: secondary analysis of data related to dynamics of health and disability, cognition, psychosocial and sociodemographic factors, genetics, and biomarkers, long term care, caregiving, behavioral medicine, retirement, economic status; and pilot research on under-utilized databases. The R03 is intended to support small research projects that can be carried out in a short period of time with limited resources. Expires 5/8/12. Program: Understanding and Promoting Health Literacy
Agency: National Institutes of Health
Next Deadline: Jun 05, 2010
Many NIH institutes, OBSSR and AHRQ support research (R01; R03; R21) on health literacy across the lifespan and on health literacy concepts, theory and interventions. Health literacy is defined as the degree to which individuals have the capacity to obtain, process and understand basic health information and services needed to make appropriate health decisions. Applications should be relevant to both the general objectives of the FOA and to the specific research interests of at least one of the participating organizations. Expires 5/8/13. See http://grants.nih.gov/grants/guide/pa-files/PA-10-133.html for R01 details. E-mail: kingjo@nia.nih.gov

Program: Alcohol Use Disorders: Treatment, Services Research and Recovery
Agency: National Institutes of Health
Next Deadline: Jun 05, 2010
Supports research in four research domains: medications development for treatment of alcohol use disorders; behavioral therapies and mechanisms of behavioral change; health services research; and recovery research. NIAAA encourages treatment and health services-related studies on a number of special emphasis populations and topics including: psychiatric/substance abuse/medical comorbidity, adolescents, fetal alcohol spectrum disorders, health disparities/special populations and use of novel methods and technologies. Expires 5/8/13. See http://grants.nih.gov/grants/guide/pa-files/PA-10-102.html E-mail: martinellia@mail.nih.gov

**Program:** New Biomedical Frontiers at the Interface of the Life and Physical Sciences  
**Agency:** National Institutes of Health  
**Next Deadline:** May 18, 2010  
NIH and NSF support discovery research that may create entirely new areas of biomedical investigation through bridging the physical and life/behavioral sciences. Topics include: self-healing/replicating nanodevices; biological computing; biologically-inspired next generation materials; biological power sources; non-invasive identification of disease modeling and real-time observation of biomolecular and pharmacologic interactions; and theoretical models of intercellular processes and robust methods for manipulation. Expires 5/19/12. See http://grants.nih.gov/grants/guide/pa-files/PAR-10-142.html

**Program:** Diversity-Promoting Institutions Drug Abuse Research Program (DIDARP)  
**Agency:** National Institutes of Health  
**Next Deadline:** Jul 15, 2010  
Supports research project grant (R24) applications from institutions that historically and/or currently serve students from diverse and disadvantaged backgrounds that aim to increase their capacity to conduct drug abuse and addiction research. Applications should propose to foster research career development of a diverse cadre of faculty, students & staff who are currently underrepresented in drug abuse research, and to enhance research infrastructure. Up to $350,000 per year in direct costs is available. Limited submission: one application per institution. Expires 7/16/11. **Program:** Translational Research for the Prevention and Control of Diabetes and Obesity  
**Agency:** National Institutes of Health  
**Next Deadline:** Jul 01, 2010

Supports research demonstration dissemination projects (R18) to test the effectiveness of interventions to prevent and control diabetes and obesity that have a high potential to be adopted and sustained in applied health care settings. Approaches must be based on widely accepted interventions previously demonstrated to be effective in clinical trials. Research must target the prevention or reversal of obesity, prevention of Type 2 diabetes, improved care of Type 1 & Type 2 diabetes or the prevention or delay of the complications of these conditions. Expires 3/2/12. See http://grants.nih.gov/grants/guide/pa-files/PAR-09-176.html E-mail: ch514c@nih.gov

**Program:** Research on Autism and Autism Spectrum Disorders  
**Agency:** National Institutes of Health  
**Next Deadline:** Jun 05, 2010

NIMH and many NIH institutes support research (R01; R03; R21) designed to elucidate the etiology, epidemiology, diagnosis, treatment and optimal means of service delivery in relation to autism spectrum disorders (ASD). Basic research into the pathophysiology of autism & autism spectrum disorders, including research on brain mechanisms & genetics, is of special interest. Program intended to support research goals of the Strategic Plan for ASD Research (http://iacc.hhs.gov/reports/2009/iacc-strategic-plan-for-autism-spectrum-disorder-research-jan26.shtml). Expires 5/8/13. See http://grants.nih.gov/grants/guide/pa-files/PA-10-158.html Email: gilottyl@mail.nih.gov

Program: Teen Pregnancy Prevention: Replication of Evidence-Based Programs
Agency: U.S. Department of Health and Human Services
Next Deadline: May 17, 2010
Supports projects to replicate evidence-based programs proven through rigorous evaluation to reduce teenage pregnancy or behavioral risks underlying teenage pregnancy, or other associated risk factors. Funding available for two program types: curriculum-based programs; and youth development programs. Deadline refers to applications submitted for programs not on the list of programs in Appendix A. Deadline for programs on the list is 6/1/10, with recommended LOIs due 5/3/10. Up to 150 awards will be made in FY 10. Universities eligible to apply. Program: Teen Pregnancy Prevention: Research and Demonstration Programs
Agency: U.S. Department of Health and Human Services
Next Deadline: Jun 08, 2010
The Office of Adolescent Health and ACF support support research and demonstration programs that develop, replicate, refine and test additional models and strategies for preventing teenage pregnancy. Also funds projects to implement innovative strategies for preventing teenage pregnancy. Of interest are high-risk, vulnerable and culturally underrepresented youth populations, including youth in foster care, homeless youth, youth with HIV/AIDS, pregnant women or mothers under 21 and their partners. LOI is recommended by 5/10/10. Universities eligible to apply. See http://tinyurl.com/ye595j2 E-mail: oah.gov@hhs.gov

Program: Postdoctoral Research Fellowships in Basic Biomedical Sciences
Agency: Whitney (Helen Hay) Foundation
Next Deadline: Jul 15, 2010
Supports postdoctoral research training in all basic biomedical sciences. Eligibility is limited to MDs, Ph.D.s, or the equivalent who have no more than one year of postdoctoral research experience and who have received their degree no more than two years (Ph.D.) or three years (MD) before the deadline, or who are in the final stages of their degree. Support is limited to applicants who plan a significant change of venue from the laboratory where they already have received significant training. Stipends start at $43,000 annually with a $2,500 research stipend. See http://www.hhwf.org/index.html for details. E-mail: hhwf@earthlink.net

**Program:** Dimensions of Biodiversity  
**Agency:** National Science Foundation  
**Next Deadline:** May 07, 2010  
Seeks to characterize biodiversity on Earth by using integrative, innovative approaches to fill the most substantial gaps in understanding of the diversity of life on Earth. This campaign takes a broad view of biodiversity, and in its initial phase focuses on the integration of genetic, taxonomic, and functional dimensions of biodiversity. Successful proposals should integrate these three dimensions to understand interactions and feedbacks among them. Deadline refers to required letters of intent. Full proposals due 6/8/10. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=503446 for details. E-mail: dimensions@nsf.gov

**Program:** Behavioral Systems  
**Agency:** National Science Foundation  
**Next Deadline:** Jul 12, 2010  
Supports research on development, function, mechanisms, and evolutionary history of behavior, with emphasis on a vertically integrated understanding of the behavioral phenotype in nature. Specifically encourages projects that seek to understand how combinations of neural, hormonal, physiological, and developmental mechanisms act synergistically as a system from which behavior emerges. Lab work and the study of animals in captivity are encouraged when necessary. Proposals due 1/12 and 7/12 annually. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=501086 for details. 4201 Wilson Boulevard  
Arlington, VA 22230  
703/292-8417

**Program:** Neural Systems  
**Agency:** National Science Foundation  
**Next Deadline:** Jul 12, 2010  
Supports research on how complex functions emerge from the interactions of the cellular elements of the nervous system and the interactions of the nervous system with other physiological systems. Development and use of new theoretical approaches and computational models to guide and instruct experimental design are particularly encouraged. Proposals due 1/12 and 7/12 annually. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=501089 for details. E-mail: dwitt@nsf.gov  
**CFDA Number:**

Integrative Organismal Systems Division  
4201 Wilson Boulevard  
Arlington, VA 22230  
703/292-8421
**Program:** Physiological and Structural Systems  
**Agency:** National Science Foundation  
**Next Deadline:** Jul 12, 2010

Supports research aimed at furthering the understanding of organisms as integrated units of biological organization. Projects that use systems approaches to understand why particular patterns of architecture and regulatory control have emerged as general organismal properties are particularly encouraged. Three program areas: Symbiosis, Defense, and Self-recognition; Processes, Structures, and Integrity; and Organism-Environment Interactions. Proposals due 1/12 and 7/12 annually. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=501090 for details. E-mail: mmishkin@nsf.gov

---

**Program:** Biomolecular Systems  
**Agency:** National Science Foundation  
**Next Deadline:** Jul 12, 2010

Supports research in the areas of molecular biophysics, molecular biochemistry, and metabolic biochemistry. Emphasizes the relationships among structure, function, and dynamics in studies of individual macromolecules, macromolecular complexes, and metabolic pathways. Research of interest includes novel and creative projects addressing protein folding and dynamics, natively unfolded proteins, protein design, molecular recognition, and metabolic pathways. Proposals due 1/12 and 7/12 annually. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=12771 for details. E-mail: kshukla@nsf.gov

---

**Program:** Cellular Systems  
**Agency:** National Science Foundation  
**Next Deadline:** Jul 12, 2010

Supports research on the structure, function, and regulation of plant, animal, and microbial cells and their interactions with the environment and one another. Supports study of the structure, function, and assembly of cellular elements and of intracellular and transmembrane signal transduction mechanisms and cell-cell signaling processes, including those that occur in biofilms. Research on cellular recognition and self defense mechanisms included. Multidisciplinary approaches encouraged. Proposals due 1/12 and 7/12 annually. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=12772 for details. E-mail: gwarr@nsf.gov

**CFDA Number:**

---

**Program:** Genes and Genomes Systems  
**Agency:** National Science Foundation  
**Next Deadline:** Jul 12, 2010

Supports studies on genomes and genetic mechanisms in all organisms. Research can focus on the structure, maintenance, expression, transfer, and stability of genetic info in DNA, RNA, and proteins, and on how those processes are regulated. Areas of interest include genome organization, molecular and cellular evolution, replication, recombination, repair, vertical and lateral transmission of heritable information, and the processes that mediate and regulate gene expression. Proposals due 1/12 and 7/12 annually. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=12780 for details. E-mail: kccone@nsf.gov

Program: Coupling, Energetics, and Dynamics of Atmospheric Regions (CEDAR)
Agency: National Science Foundation
Next Deadline: May 10, 2010
This broad-based, community-initiated, upper atmospheric research program supports research to understand the behavior of atmospheric regions from the middle atmosphere upward through the thermosphere and ionosphere into the exosphere in terms of coupling, energetics, chemistry, and dynamics on regional and global scales. The activities within this program combine observations, theory, and modeling. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5503 for details. E-mail: fkamalab@nsf.gov

Program: Math and Science Partnership (MSP)
Agency: National Science Foundation
Next Deadline: Jul 08, 2010
Supports partnerships to improve K-12 student achievement in math and science. Proposals for Institute (for teacher leaders/master teachers), MSP-Start (new awardees, especially MSIs and PUIs), and Phase II (prior awardees) Partnerships and for RETA (research, evaluation, and technical assistance) projects due 7/8/10. Proposals for Targeted Partnerships (focused on specific grade range, critical juncture, or specific discipline) due 10/14/10. Limited submission: one proposal per partnership category as lead. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5756 for details. E-mail: kbergin@nsf.gov

Program: EarthScope
Agency: National Science Foundation
Next Deadline: Jul 16, 2010
Supports single or collaborative proposals to conduct research associated with the EarthScope facility. EarthScope is a science program to explore the 4-dimensional structure of the North American continent. The program provides a framework for broad, integrated studies across the Earth sciences & offers a centralized forum for Earth science education at all levels & an excellent opportunity to develop cyberinfrastructure to integrate, distribute, & analyze diverse data sets. Proposals due 7/16 annually. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=501035 for details. E-mail: lwarren@nsf.gov

---

**Program:** NSF Earth Sciences Postdoctoral Fellowships (EAR-PF)  
**Agency:** National Science Foundation  
**Next Deadline:** Jul 01, 2010  
Supports highly qualified investigators within three years of obtaining their PhD in the Earth sciences to carry out an integrated program of independent research & education. Fellowships of up to $85,000 per year for up to two years can be taken to the institution or national facility of the fellow's choice. Supports 10 awards each year. Deadline 7/1 annually. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=503144 for details. E-mail: lpatino@nsf.gov

**Program:** Petrology and Geochemistry  
**Agency:** National Science Foundation  
**Next Deadline:** Jul 06, 2010  
Supports basic research on the formation & evolution of Earth using petrological & geochemical characteristics of Earth materials in the crust, mantle, & core. Proposals generally address the petrology & high-temperature geochemistry of igneous & metamorphic rocks, mineral physics, economic geology, & volcanology. Proposals that bridge disciplinary boundaries or include development of analytical tools for potential use by the broad community encouraged. Proposal windows 6/6-7/6 and 12/6-1/6 annually. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=13683 for details. E-mail: sesperan@nsf.gov

Program: MARGINS Program  
Agency: National Science Foundation  
Next Deadline: Jul 01, 2010  
Supports projects designed to elevate descriptive and qualitative knowledge of continental margins to yield more systemic understanding of processes that control margin genesis and evolution. Concentrates on four scientific experiments: Rupturing Continental Lithosphere, Subduction Factory, Seismogenic Zone, and Source-to-Sink. Postdoctoral fellowships, science synthesis and planning workshops, and theoretical and experimental institutes also supported. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=13516 for details. Program: Division of Chemistry (CHE)  
Unsolicited Proposals  
Agency: National Science Foundation  
Next Deadline: Jul 31, 2010  
Supports unsolicited proposals in all traditional areas of chemistry and multidisciplinary fields that draw on the chemical sciences and enable basic research and education. Modes of support include single/multi-investigator awards, funding for shared instrumentation, instrumentation development, and educational projects that leverage the division's research investments to build research capacity. Projects that help build infrastructure and partnerships that advance the chemical sciences are also supported. Annual submission windows are 7/1-7/31 and 11/1-11/30. Program: Physics of Living Systems (PoLS)  
Agency: National Science Foundation  
Next Deadline: Jul 31, 2010  
Program evolved from the Biological Physics program, which supported projects that applied analytical and experimental tools of physics to the study of biological problems at the molecular level. PoLS targets theoretical and experimental research exploring the most fundamental biological processes that living systems utilize to perform their functions in dynamic and diverse environments, stimulating investigators that have the potential to transform the study of living systems.
