

Complete a B.S. in Health Care Administration right in your backyard.

Shippensburg University is offering
a degree completion program leading to a bachelor's degree
in Health Care Administration in Gettysburg.

**{ For working adults who have earned 60 or more college credits,
with 5 years of experience and who hold, or would like to hold,
administrative positions in the health care field. }**

The program's **core courses** provide a
solid foundation in:

- the structure of organizations
(particularly with respect to the health
care field),
- the behavior and communication of
individuals within organizations, and
- how to resolve conflict in order for
organizations to function efficiently.

Professional courses provide opportunities
to explore the legal, ethical, financial,
resource, and strategic issues of health
care management and administration.

Elective courses challenge students to
integrate theory and practice through an
internship or research project.

**New cohort begins
in Fall 2008 at
HACC-Gettysburg,
731 Old Harrisburg Rd.**
