

Your support helps fund scholarships for legacies attending Shippensburg University and the Shippensburg University Alumni Association.

The Shippensburg University Legacy Program was designed to recognize the commitment of its alumni to their alma mater who support and encourage their children, grandchildren, nieces and nephews, cousins, and siblings to consider Shippensburg University for their higher education. A legacy student is defined as an individual whose parent, grandparent, sibling, aunt or uncle received a degree from Ship.

Legacy families make a choice to continue a family tradition by attending Ship and the Alumni Relations office takes pride in recognizing the growing number of families who have made the commitment to make Ship a part of their history and future.

Your support now funds two new scholarships every year for incoming freshmen with a legacy relationship. You can help build this scholarship by playing a round of golf and/or showing your support through a sponsorship. Unable to participate, or do not golf? Support the scholarship and the outing by registering as a phantom golfer.

Students currently receiving the Alumni Legacy Scholarship are:

Ian Cox, Matthew Ester, Taylor Myers, Matthew Riley, Ethan Shellenberger, and Alexa Snyder
