

Attach a copy of a registration information page or registration form showing all available registration fee options. If registration and conference information is primarily online, webpages (html or pdf documents) and web screenshots are acceptable.

- You must include a registration form or registration details page showing all registration options (e.g. member/non-member/student rates, full / one-day registration, package options that include annual membership dues, workshops, banquets, meals, field trips, etc.).
- If the fee is the same for all participants, include a registration information page indicating this price.
- **This is NOT the same as a receipt showing that you have paid the fee.** Applications which include a receipt but do not include a page with all registration option prices are likely to be denied.
- Note that CFEST will not reimburse association membership dues, and workshops are not eligible for funding through the CFEST Travel program (workshops may be eligible for FTCE funding).
- This item is requested to ensure that reimbursement and accounting proceed smoothly. CFEST requires the registration form/information page since receipts rarely provide the same level of detailed information. This item is part of the application phase (rather than reimbursement) in part since the required information is easier to obtain prior to the conference; it is much harder to obtain once conference organizers take down their website.

Some examples are on the following pages.

Example with many options:

All fees are in US\$ ONLY.		
Registration Category <i>(see definitions below)</i>	by Dec. 22	at Meeting
Member of AMS, ASL, CMS, MAA, SIAM	\$282	\$371
