

## Virtual High Impact Strategies Training

What types of high impact strategies do effective educators use to engage all learners? Join us for a synchronous virtual professional development opportunity where you will explore current educational topics. Content includes Multi-Tiered Systems of Support (MTSS), Social Emotional Learning (SEL), active engagement, addressing learner variability, instructional and assistive technology, and educator effectiveness. This conference style day of professional learning features various forms of presentation modalities, breakout sessions, and collaboration/networking opportunities. Participants will leave with access to a slide deck of high impact engagement strategies that can be applied across contexts and with diverse learning populations.

Cost- \$55.00

This course will be a one day synchronous session.
