

UNIVERSITY 101 CURRICULUM - RUBRIC OF LEARNING OBJECTIVES (DESIRED OUTCOMES) & COMPETENCIES

Program goal: Guide and prompt students to develop skills in support of scholarly and academic success, engage with the university community, foster personal development and wellness, and promote understanding of diversity and social responsibility through a **first year seminar**.

Due to the complexity of UNIV101, the following rubric both frames the broader purpose and many critical components of UNIV101, in addition to outlining potential areas of assessment.

Learning objectives / Desired outcomes	Levels of Competency				
	Unsatisfactory	Emerging	Developing	Proficient	Mastery
Cultivate Scholarly and Academic Success <i>The student engages in academic exploration and adapts and applies the metacognitive and academic skills to be a successful student-scholar.</i>	Fails to develop metacognitive skills through academic engagement; fails to develop appropriate achievement strategies or college-level skills in reading and writing, critical thinking, analytical reasoning and information literacy.	Defines different metacognitive skills, lists appropriate achievement strategies, and defines college-level skills in reading and writing, critical thinking, analytical reasoning and information literacy.	Explains how metacognitive skills effect their learning and academic success, begins to implement appropriate achievement strategies and college-level skills in reading and writing, critical thinking, analytical reasoning and information literacy.	Interprets how academic exploration shapes their identity as a student-scholar, implements appropriate achievement strategies, and demonstrates college-level skills in reading and writing, critical thinking, analytical reasoning and information literacy.	Constructs their identity as a student-scholar, adapts academic skills to support their academic achievement, and consistently demonstrates college-level skills in reading and writing, critical thinking, analytical reasoning and information literacy.
Engagement with the University Community <i>The student engages in opportunities for learning beyond the classroom.</i>	Fails to create relationships with peers, staff, and faculty; fails to use appropriate campus resources, participate in academic and co-curricular activities, or recognize the purpose and traditions of Shippensburg University and higher education.	Describes how relationships with peers, staff, and faculty are important to their student experience, lists appropriate campus resources important to their success, attends campus academic and co-curricular activities, and defines the purpose and traditions of Shippensburg University and higher education.	Identifies peers, staff, and faculty with whom to build relationships, identifies appropriate campus resources and begins to use them, attends academic and co-curricular activities on campus and in the community, and interprets the purpose and traditions of Shippensburg University and higher education for Shippensburg University students.	Initiates relationships with peers, staff, and faculty, explores how to use campus resources appropriately; attends and interprets how academic and co-curricular activities on campus and in the community apply to their class themes, and distinguishes how the purpose and traditions of Shippensburg University and higher education apply to their experience as a Shippensburg University student.	Develops relationships with peers, staff, and faculty, evaluates and assembles appropriate campus resources for specific needs; attends and examines how academic and co-curricular activities on campus and in the community positively impact their success, and incorporates the purpose and traditions of Shippensburg University and higher education into their identity as a Shippensburg University student.

A **competency** is the ability to do something successfully.

A **program goal** is a clear statement that expresses what our program will do for students. Each goal is designed to prompt and guide teaching practice and program assessment.

A **student learning objective** is a clear statement about what we expect students to learn or accomplish. Like any type of objective, a student learning objective is a desired outcome.

A **student learning outcome** is the result of a learning process; in other words, it is an actual outcome. To foster assessment of student learning, student learning outcomes must be observable, observed, measurable, and measured. Student learning outcomes can be characterized using an ordinal scale of competency (e.g., unsatisfactory, emerging, developing, proficient, and mastery).
