

Requirements for Declaring or Changing a Major

To declare a major or change from one major at the university into another you must meet certain criteria. Majors at Shippensburg are classified as either “high-demand” or “non-high-demand.” Students wanting to declare or change to a “non-high-demand” major may submit a request form at any time during the semester. The change is subject to the approval of the department chair of the new or intended major following a review of your academic record. See the chart below for specific GPA and/or course criteria.

Major programs in bold type are classified as “high-demand” and have limited enrollment. Your first step is to complete and submit the change of major request within the **first three weeks of the semester**. By the **fourth week of the semester**, the major department will contact you regarding any additional information required for admission such as an interview, written essay or attendance at an information session. The major department will notify you by the **fifth week of the semester** as to the status of your request. Upon approval, the Registrar’s Office will be notified of the major change. A new academic advisor will be assigned by the department. Acceptance into any major program at Shippensburg University is based upon space availability and specified GPA requirements and/or course criteria.
